Quickly remove files, folders, system components, registry entries and web history, from the history list in Internet Explorer, Firefox, Chrome, Safari, Opera and other web browsers. It runs on all Microsoft Windows operating systems. Porn Terminator 4.0 Description: Porn Terminator is a modern-looking application that has been developed in order to aid individuals in detecting image, video, audio and text files, as well as Internet history with questionable contents and deleting them. Well-organized interface The installation process is a piece of cake and does not being any kind of surprises, while the interface you are greeted by presents a modern and well-structured interface. It is suitable to all types of users, including those little or no previous experience with the IT world. Scanning the computer, configuring settings and saving everything to the HDD You can easily choose the partition you want to process and just click the "Scan" button. This process is not quite friendly to your computer's performance, as the CPU and memory usage is moderate to high. Once you wrap it up, results are

going to be displayed in a tabbed environment, which enables you quick access to all available options. All detected items can be sorted according to the alphabet, path, size, type or date, and previews are available, so that you can also assess if they are suitable or not for children. Results can be saved to the hard drive, yet you should know this feature is only available in the full version. A summary is also available, so that you can view stats regarding the total number of files processed and the questionable ones. From the settings panel you can configure exactly which types of files to scan, and save them so that you can use them at a later date. Conclusion To sum up, Porn Terminator is a useful piece of software dedicated to parents concerned that their children might be accessing websites and other materials not suitable for their age. The response time is good, the interface is simple-to-handle and we did not detect errors or crashes. Porn Terminator has been successfully tested on Windows 7, Windows 8, Windows 8.1, Windows 10 and Windows XP and Windows Vista. All files are uploaded by users like you, we can't guarantee that Porn Terminator are secure Downloading is very rapid,

download may be available but also it can be too new to be downloaded Download Porn Terminator from the below download links, and after download

**Porn Terminator Crack + Free Download**

The "keymacro" utility is designed to help people to use the macro programming facility of MS Office (Word, Excel, Powerpoint, etc.). It is made up of three main features: search (regex search), type and execute macros and data automation. Description: How to use the software? This is a friendly GUI that allows you to search in the whole text of the files in the selected folder, and select the target files and their extension. Then, you can select the actions to be performed by pressing the "Run Macro" button. It also includes a record button that allows you to record the actions performed when a macro is run, and insert them in another macro. Installation: Download the latest version from the official website and install it on the computer. More information: Keymacro can be used as a.bat file and as a.exe file. Keymacro was designed to work on the latest Microsoft Office 2003, 2007 and

2010. Keymacro is freeware but has some limitation: - limited by version - limited by available options - limited by memory. * PREVENTION OF INTERNET TRAFFIC is a new and powerful Internet Firewall that is one of the lightest and cheapest. It is especially developed for online privacy and security. It can prevent internet traffic from the user's computer to the internet (this is usually called "to leave") and is targeted to stop people or ISP's from spying on you, or to stop ISP's from collecting information about your internet usage. (more…) 1-5-5-2-1-1 is a perfect math game for children, kids and adults. It is based on the history of the USA and uses a 6x6 board for all the game. The first move is the initial game is played with the 1-2-3-4-5-6-1 pieces on a 6x6 board with the white side on the left. The moves are: a move, a return, a move, a return, a move, a return, etc. The 1-5-5-2-1-1 is a game that involves a puzzle. It is also known as "the game of 52" or "the game of 52 and the game of 36". The game consists of a queen, an ace, two kings, and three jack (more 77a5ca646e

* Scan and clean your browser history! * Search files by name, size, type, path or date. * Logs all traces of dubious files (like JPG/PNG/WebP pictures, CSS/JavaScript/HTML files,...) * Delete suspicious files with a click of a button! * Save files to the hard disk, so you can use them at a later time. * Configure scan settings, so you do not have to scan the same file twice. * Automatic scans with a single mouse click! * Find out if your child is surfing inappropriate content. ========================================== ========= [Full Version] can help you remove history files of your surfing from history record and may save date you surf! (files saved are marked in red) [Home Page] ================================ =================== Version 1.1.0: • New feature: select files to be scan by name, type, size, date, path • Fixed: sometimes the app didn't work properly for some users. ============================== ==================== This app does NOT change your browser history and it DOES NOT change your personal files in any way. It only scans files and it

DOES NOT delete files from your hard drive. This is a parent's tool to help you know if your child is surfing Internet in inappropriate areas. Recommended Posts Video Locker 3.5 Share this video Tired of unwanted videos being stored in your device? Now it's time to get rid of these videos and free up your storage. Video Locker is here to do just that. Simply launch the app and set the folder and password and click on Lock. That's all it takes. You can now start enjoying your videos. The latest version of Video Locker introduces a new unique feature, Scan & Clean. Scan can detect all types of videos and audio files and remove them all from the folder. Clean will also remove all unwanted videos, once they've been detected. You can even set the app to automatically detect and remove videos. This new feature is at the heart of everything we've done. For a better experience, we've also improved the stability of the app and added some cool new features to spice up your device. Key Features: ✔ Synchronization with cloud ✔ Lock the folder ✔ Preview images before removing ✔
