① Fantasy Action RPG In Elden Ring, there is a war raging between the Kingdom of Elden and a force that threatens to break into their lands. The fight reaches a stalemate. Each day, the conflict continues. As the ruler of the kingdom, it is your task to lead your knights to defeat the enemy and end the blood-chilling war. However, your battle against the enemy is not only about equipment. The Kingdom of Elden is filled with monsters. In this setting, you will need to take on the monsters and find new technology in addition to the materials, weapons, and potions you find in the game. And while you are searching for new equipment and weapons, you will also develop your skills, as in many RPG titles. Your skills will not only help you in battle, but you may also be able to transform your gear. In addition, the depth of the battle is greater than many other action RPG titles. The fight against the enemy is full of unexpected turns, and will force you to pay attention to many details at once. There is a world that you will encounter and a story that you will experience.

② Cool Equipment The equipment in this game is much more advanced than those of other action RPGs. The weapons, armor, and items you equip form powerful equipment that can be combined with other items to develop your equipment. The durability of the equipment is higher than other RPGs, allowing you to enjoy one-handed play while obtaining a new weapon. You can develop new skills and attribute combinations that are powerful enough to allow you to defeat even powerful enemies. Some of the equipment in this game is equipped with a mastercrafting feature, allowing you to fully customize the equipment.

③ Sophisticated Adventure The game features many dungeons that are filled with traps, monsters, and fantastic obstacles. You will encounter a variety of dangers, including bones, a gypsy camp, a hibernation zone, etc. You will also make many discoveries in your journey. Throughout your journey, you will find many challenging quests to complete. Each quest has a variety of answers, and you will need to figure out the right one.

Features Key:

Adventurers' Raids (Passive Campaign & Active Campaign) You can choose either of the two operations, "Adventurers' Raids", where you explore and fight monsters, or "Conspiracy Raids", where you play a role of leader and participate in a group operation. In Adventurers' Raids, the roles are passive and the main action is performed by a self-designed character. During this campaign, you will be able to learn how to be an Elden Lord and your skills will be improved. In Conspiracy Raids, we recommend that you focus on a specialty, such as using a unique ability or equipment, while patiently assisting your allies, a group of two or more characters.

Elden Boots By equipping the "Elden Boots", you will become an Elden Lord. You can increase "Elden Attribute Points" by defeating enemies with your sword, which will boost the attributes of your weapon used against enemies. The value can also be increased when your attribute reaches the limit. You can use

“Elden Attribute Points” to fully enhance one attribute when that attribute reaches its limit.

Elden Weapons Equipping the “Elden Weapons”, you can increase your strength, dexterity, and constitution of your character and your attribute. While you equip an Elden Weapon, you can customize it with additional accessories to make it more beautiful.

Elden Armor Equipping the “Elden Armor”, you can strengthen your physical strength and defense. Along with attributes, you can also equip items that boost active skills used by specific weapons. Up to five of these skill items can be equipped in a row.

Legendary Shout In various events, you can use a unique shout called “Legendary Shout” to complete the task of a specific boss character or of your party member. It will act as an additional attack with a chance to block attacks. You can use this shout once a day. With use, it consumes a certain amount of a specific attribute. After multiple uses, its use effect will diminish gradually. In addition, it lowers the effectiveness of shield skills. When you use the shout, you can distinguish the effects of the chance to hit and the chance to get through the armor.
